**Not-so-famous quotes about
leadership**

'My ED was aware of a meeting I was to facilitate. On the morning of the meeting my ED text messaged me to see if I was feeling comfortable and confident with the context of the meeting.

This was done before hours with the post script that "she was always there if I needed her help".

That is the sign of a good leader.'

Managers

Fearless when confronted by staff venting all over them...wise enough to ensure all parties come out intact!

Not written by Stalin

'I believe a good leader has a capability to appreciate and nurture individual team member qualities and abilities to form a cohesive team.'

Not written by Fidel Castro

‘The leadership within this Directorate is successful because it places a lot of emphasis on relationship-building. The leaders are also clear about their expectations concerning performance and quality of work.’
